SURVIVAL HINTS

This section assumes that you have said NO to the first four questions in the game.

- As soon as possible get hold of a rifle and ammunition.
- If you meet a dangerous animal but you don't have both rifle and ammunition, you have to FLEE.
- Whenever you shoot an animal, eat it right away. There is no reason to wait. It does require that you have a cutting tool though.
- You should also eat the provisions right away. No reason to wait. Requires a can opener.
- Get someone to carry your stuff as soon as possible.
- You may save some time by sailing down the river.

UNWINNABLE SITUATIONS

If you have used too much time, you may not be able to finish the game before the area becomes flooded or you die of hunger. The game cannot tell you if you have used too much time so keep an eye on the time and date, and pay attention to messages like "You are very hungry now".

In all other situations the game will let you know if the game has become "unwinnable". You can then UNDO your latest action.

HINTS

What should I buy at the trading post?

- Everything

How do I defeat the bear?

- Buy ammo at the trading post and find a rifle in some random location (unless you disabled randomness).
- Then SHOOT BEAR

How do I defeat the jaguar?

- The same way as the bear, though you might have to try several times before you succeed.

- You need to get hold of a silver key

Where do I find the silver key?

- It is inside the jewelry box

Where do I find the jewelry box?

- Randomness on: It is placed randomly in a location north of the door in the gorge.

I can't carry the provisions and the dynamite!

- You need to hire the natives in the village

Where do I find the village?

- CUT the THICKET in the Small Clearing. Requires a machete.

I can't enter the labyrinth inside the bear cave!

- You need to read the diary first, so you have a chance of getting out again.

I am lost in the labyrinth inside the bear cave!

- In the diary it was mentioned that it helped to think of Ewen.
- E-W-E-N...
- Go East-West-East-North to get out of the labyrinth.
