Hi there!

This is Hack, the hacker. It’s catchy, right?

...

Wait for a second, don’t you know who I am? You should keep reading the story then. See you when you get to chapter two. Go! I won’t move, I’ll be here waiting.

...

Okay, are we ready?

Now you know me, we can continue. I’ll be helping you throughout the whole story, in case you got stuck somewhere.
Don’t you see it? Move the cursor to find the note on the screen. It is more or less in the middle of the empty space. Right here.

What would you do without me?

Time until the police arrive

The room was completely dark, the light switch didn't work, so I had no choice but to search blindly.
That's a tricky one. Hold left click with your mouse and drag down to reveal the content. That's the light you needed.

There was a note in which I could see that something was written but I couldn't read it clearly. If I had a special light…

HACK, OUR HACKER
So you are trying to find my house… Well, you won’t see it unless today is Monday. Sounds quite strange, but you’ll see it’s easy peasy.

Just change the date on your device (computer, laptop, mobile, tablet…) to any Monday of the year.

Update the visor and you should be able to see it.

Wait! You're not a restrictor, are you? In that case, forget all that I just said to you.
Dots and dashes… Does it sound familiar to you?

Each bracelet represents a letter, written in morse code. Once you have the letters, order them.

White: E   Red: I   Black: L   Green: F

Solution: LIFE
Okay, you are working on the Capitol border. Let’s check those id cards and see which of them are fake. You will need 4/7 correct to pass this level.

1st: Red color

2nd: All in order.
3rd: Perfect.

4th: Does not have the ID. It’s up to you to let him cross or not.

5th: Look at that logo!

6th: Do you know what day we live in?

7th: All good! She is my girlfriend, btw.
So we are already on the exam. How is it going so far? I hope I’m being helpful. Otherwise, Rye won’t renew me. 😞

Where were we? Oh, the perception test.

Letter A. I’m very perceptive, as you can see.
Memory… let me remember… Oh yes! Number 5 is the correct one.
It’s pretty obvious. “ADCB” that has to be the order.
PUSH HIM! Don’t doubt it. A restrictor won’t hesitate.

What would you do in the next situation?

You find yourself standing guard on the metro, there are five workers repairing the tracks.

A brakeless train heads towards the workers. Your only chance to save them is to push a man next to you, who is big enough to stop it.

Would you push the man or let the workers die?
I have to admit that I like that security sistem. Maybe I’ll implement it in my house.
We are so close to the end! Aren’t you excited?

I’ll give you a shortcut to reach the optimal stress level to get the confession from the Dr. Ten.

Blackmail him with the photograph you found. Then calm him twice Easy as that. There you have your confession.

From here on, you won’t need me anymore so, enjoy the end and good luck.

Before you go. Could you rate my service?
